Introduction

Tube Enterprises Incorporated dba Integrity Medical Solutions (IMS) has been manufacturing the Westcot product line of emergency preparedness and response equipment since 2004. Over the years IMS' managing partners have developed and greatly expanded on their capabilities with diverse products and a passion to engage agency partner insight. IMS will continue to strive toward enabling more effective operational procedures while including the health concerns of Responders, as well as the Nation's most at risk populations.

Mission Statement

IMS' managing partners are compassionate about providing equal care for at risk populations and safeguarding Responder health via the qualified products developed and manufactured at IMS' 25,000 square foot facility. Per 75 years of combined manufacturing experience IMS has finetuned their capabilities and enhanced product variation to a level of impeccable greatness.

FL Pasco County DOH Stand Alone Shelter 2019

Westcot Functional Needs Cot

Application

- Functional Needs Support
- Mass Care
- Surge Capacity
- Physical/Cognitive Ability Challenges
- Medical Shelters
- General Population (Post Katrina Emergency Management Reform Act)

Safety

- ADA Compliant
- FNSS Recommended
- 450 Lb. Working Capacity
- Friction Welded Tubular Ends
- Heavy Duty Leg Locks
- Reinforced/Antimicrobial Vinyl Coated Decking
- Antimicrobial Soil/Resistant Triple Layer Vinyl Mattress
- Easy to Decontaminate
- Exceed FED STD 1633 for Flammability Rating
- Anti-Tilt stabilizing design prevents tipping
- Safety and Instructional Labeling

Superior Functionality

- Five Position Locking Head Elevator
- Two Position Foot Elevator
- Convolved Foam Mattress
- Wheelchair Transferrable Height (18")
- Spring and Deck Design (Reduces Bed Soars)
- Lightweight Rust Proof Aluminum Frame
- Stores Securely for Rapid Deployment
- Wide Security Belt

Options

- Optional Stow on Board Safety Rails
- Optional Stow On Board IV Pole
- Optional Non-Slip Leg Wraps
- Optional Disposable Linen Pack
- WCR10A Storage Cart / Holds 10 WCFNC

WCATFNC8P

No matter what your population concern, Westcot has a solution.

The Westcot All Terrain Functional Needs Cot 8 Person offering is a rapid deployment system designed to assist response agencies with the expedited delivery of Functional Needs Westcots to nearly any environment. The Westcart AT8 deployment and storage cart outfitted with four all terrain casters allow for zero deflation concerns. Two of the enhanced casters afford high quality brakes, which improves operation safety.

There are eight Westcot Functional Needs Cots (WCFNC) paired inside of four Westcot Rapid Deployment Bags (WCRDBFNC2) The WCFNC are designed to provide equal care for survivors of natural disasters who possess impaired cognitive and/or physical ability by providing functional respiratory and blood circulation support during temporary care scenarios. The stow on board IV poles and Safety rails provide necessary precaution, the Disposable Linen Packs (DLP) improve deployment efficiency by ensuring that box is checked.

The WCRDBFNC2 were designed to reduce Responder injury, increase deployment efficiencies, and protect your Westcot investment. The Whole system is covered in a Triple Layer Vinyl Dust Cover (WCVDC) which is soil and puncture resistant.

WCAT8: 39 x 43 x 74" at 155 lbs.

WCFNC SRIV: 80 x 32 x 18" (deployed) / 40 x 34 x 8" at 29 lbs. (stored)

WCRDBFNC2: Holds 2 x WCFNC SRIV

WCDLP: 1 Fitted Sheet, 1 Flat Sheet, 1 Blanket, 1 Pillowcase, 1 Pillow, stored inside of a Ziploc bag

Post-Katrina Emergency Management Reform Act (PKEMRA) requires that children and adults with and without disabilities who have access and functional needs must be able to access the same programs and services as the general population.

(FNSS Guidance page 10)

WESTCOT EMERGENCY DISASTER SURVIVOR

Application

- Functional Needs Support
- Mass Care
- Surge Capacity
- Special Needs
- Medical Shelters
- General Population (PKEMRA)

Safety

- ADA Compliant
- FNSS Recommended
- 450 Lb. Working Capacity
- Friction Welded Tubular Ends
- Heavy Duty Leg Locks
- Reinforced/Antimicrobial Vinyl Coated Decking
- Antimicrobial Soil/Resistant Triple Layer Vinyl Mattress
- Easy to Decontaminate
- Exceed FED STD 1633 for Flammability Rating
- Anti-Tilt stabilizing design prevents tipping
- Safety and Instructional Labeling

Superior Functionality

- Five Position Locking Head Elevator
- Convolute Foam Mattress
- Wheelchair Transferrable Height (18")
- Spring and Deck Design (Reduces Bed Soars)
- Lightweight Rust Proof Aluminum Frame
- Stores Securely for Rapid Deployment

Options

- Optional Stow on Board Safety Rails
- Optional Stow On Board IV Pole

- Lightweight Rust Proof Aluminum Frame
- Stores Securely for Rapid Deployment
- Wide Security Belt

Options

- Optional Non-Slip Leg Wraps
- Optional Disposable Linen Pack
- WCR8A Storage Cart / Holds 8 WCAPC

We have used different models of the WestCot since 2005. Initially with the NC response to Waveland MS following the aftermath of Hurricane Katrina. Since we have used the cots on several mission deployments. They have held up to countless patient contacts as well as responder handling during set-up and demobilization. The cots have also been used to sleep staff on deployments and in facilities during responses. The cots are durable and have held up to the abuse of deployments that far exceeds its competitors. IMS is a great company to work with and their customer service is excellent. Anytime that we have had a request for parts or suggestion for improvement, IMS has listened and responded to the call. We will continue to do business with IMS in the foreseeable future.

(Chris Starbuck, MSN, RN, EMT-P)

Active Patient Care

Westcot Active Patient Care 8 Person WCAPC8P

The Westcot Active Patient Care 8 Person (WCAPC8P) offering is a rapid deployment system for WCAPC which were designed to provide operating height (28") to patients and/or medical professional tasked with emergency response functions. The WCAPC8P was created to improve hospital surge capacity programs or agencies tasked with field medial hospital activation.

There are eight Active Patient Care Westcots (WCAPC) paired inside of four Westcot Rapid Deployment Bags (WCRDBAPC2) stored inside of one Westcart 8a (WC8A.) The stow on board IV poles and Safety rails provide necessary precaution, the Disposable Linen Packs (WCDLP) improves deployment and decontamination efficiencies. The Whole system is covered in a Triple Layer Vinyl Dust Cover (WCVDC) which is soil and puncture resistant. This system reduces Responder injury, increase deployment efficiencies, and protects your Westcot investment.

WC8A: 39 x 43 x 82" at 155 lbs.

WCFNCSRIV: 80 x 32 x 28" (deployed) / 40 x 34 x 9" at 35 lbs. (stored)

WCRDBAPC2: Holds 2 x WCAPCSRIV

WCDLP: 1 Fitted Sheet, 1 Flat Sheet, 1 Blanket, 1 Pillowcase, 1 Pillow, stored inside of a Ziploc bag

Optional Stow On Board IV Pole

Application

Above Average Size and/or Weight Shelter Clients,
Pregnant Woman Comfort, & Functional Support Req.

WCBSN5

Extreme obesity (defined as a body mass index > 40) is associated with serious physiological and psychological co-morbidities such as cardiovascular disease, diabetes, cancer, kidney failure, liver disease and depression. Results from the latest National Health and Nutrition Examination Survey (NHANES), indicate that an estimated 5.7% of U.S. adults aged 20 years and over are extremely obese. Considerations for extremely obese individuals are critical when planning for emergency preparedness, response, and recovery, as they will require more resources and may present significant logistical challenges in patient transport and patient care.

Bariatric beds: ensure adequate dimensions, weight capacity. Bariatric beds may also be utilized for transport purposes.

WCSIP

Safety

- Friction Welded (Spun) Tubular Ends
- Heavy Duty Leg Locks
- Reinforced Vinyl Coated Decking
- Antimicrobial Soil Resistant Triple Layer Vinyl Mattress
- Antimicrobial Soil Resistant Decking Material
- Easy to Decontaminate
- All Materials Exceed FED STD 1633 for Flammability
- Anti-Tilt stabilizing design prevents tipping

WCATSIP8P

Reduce Responder Injury, Increase Deployment Efficiency, Protect Your Investment

The Westcot All Terrain Shelter in Place 8 Person (WCATSIP8P) was designed with Responder safety at the epicenter of IMS' focus. There are eight Westcot Shelter in Place Cots (WCSIP) paired inside of four Westcot Rapid Deployment Bags (WCRDBSIP2), stored inside of a Westcart All Terrain 8 (WCAT8.) The entire system is covered in a Triple Layer Vinyl Dust Cover (WCVDC) which is antimicrobial, soil resistant, and puncture resistant.

WCATSIP8P enables rapid deployment of Westcot Shelter in Place Cots (WCSIP) to nearly any environment. The Westcart AT8 heavy-duty deployment cart outfitted with four all-terrain casters allows for fluid movement, and zero deflation concerns. Two of the all-terrain casters afford high quality braking systems which increase operational safety. The WCSIP provide compassion for anyone impacted by a shelter in place declaration. The WCRDBSIP2 reinforced proper lifting techniques and improves response times. The WCATSIP8P improves deployment efficiency, reduces Responder injury, and protects your Westcot investment.

WCATSIP8P Dimensions / Total Loaded Weight: 39 x 43 x 74" / 458 Lbs.

WCSIP Dimensions / Weight: 80 x 32 x 18" (Capacity 450 Lbs.) / 40 x 34 x 8" (28 Lbs. Each)

WCRDBSIP2 – Rapid Deployment Bags (Packs 2 x WCSIP + Enables Proper Lifting + Rapid Deployment

WCDLP – 1 Fitted Sheet, 1 Flat Sheet, 1 Blanket, 1 Pillowcase, 1 Pillow packed inside of each cot

Bariatric Patient Care 6 Person (WCBPC6P)

Introduction

The WCBSP6P was developed to mitigate Preparedness and Response efforts. This package has three primary objectives:

1. Reduce Responder injury, by promoting proper lifting techniques.
2. Increase deployment efficiency, by reducing response shelter activation time.
3. Protect your investments via the durable packaging

Includes

6 Bariatric Shelter in Place Cots
6 Rapid Deployment Bags
18 Disposable Linen Packs 33 Lb. (Individual Cot Weight)
1 Westcart Storage/Deployment Cart
1 Vinyl Dust Cover
System Dimensions: 42.5 x 42.5 x 49" @ 320 lbs.

Safety

700 Lb. Working Capacity
Friction Welded (Spun) Tubular Ends
Heavy Duty Leg Locks
Reinforced Vinyl Coated Decking
Wide Patient Restraint Belt
Antimicrobial Soil Resistant Triple Layer Vinyl Mattress
Antimicrobial Soil Resistant Decking Material - Easy Decon.!
All Materials Exceed FED STD 1633 for Flammability
Safety and Instructional Labeling

Comfort & Client Benefits

2" Convoluted Foam Mattress
Customizable Sleeping Surface
Easy Entry Height of 22"
Spring and Deck Design (Reduces Bed Soars)

34 x 34 x 4" (Stored)

5 Lb. (Weight)

2 Per Carton

Safety

The Westcot Pedi-Crib (WCPC) is manufactured with safety at the epicenter of IMS' focus. The aluminum tube ends are friction welded to eliminate the potential for injury. The WCPC securely attaches to most Westcots with safety rail brackets and four durable tubular poles. As a secondary measure, IMS has included a crib securing strap in the build. This crib securing strap wraps around the Westcot base and holds the Crib Firmly to the Westcot. Two Crib can be attached to one Westcot which minimizes the footprint of this system.

The Westcot side leg mounted stabilizing bars prevent the joined structures from tipping during deployment scenarios. IMS also provides non-slip foot attachments that secure to the Westcot and prevent slipping and sliding of the Westcots across your shelter floor. And, all Materials Exceed FED STD 1633 for Flammability Safety and Instructional Labeling.

Comfort & Client Benefits

The 2" convoluted foam mattress is antimicrobial, soil resistant, and puncture resistant. The WCPC provides a deep pocket which protects most 0-18 month old babies from injury, while they temporarily reside in emergency shelters post catastrophic event(s).

Convenience

The accordion style design allows for quick deployment and compact storage. Lightweight Rust Proof Aluminum Frame Stores Securely for Rapid Deployment

MEGA-Shelter Planning Guide A Resource and Best Practice Reference Guide

General population shelter - Serves everyone in the community that does not require the level of medical care provided by a Federal Medical Station (FMS) and/or a State/locally operated medical support shelter.

Mega-shelter - Generally necessary when the number of people requiring shelter support is large and extensive damage to structures and community infrastructure limits sheltering options and results in longer shelter operational periods (*p. 14*)

Sheltering survivors falls under emergency protective measures, which must "Eliminate or lessen immediate threats to life, public health or safety; or eliminate or lessen immediate threats of significant additional damage to improved public or private property..." (44 CFR §206.225 (a)(3))

(SC Emergency Management Division)

Westcot All Terrain General Use Cot 12 Person WCATGUC12P

Far too often avoidable injuries occur during emergency operations. IMS intends to reduce this probability with the introduction of Westcot Specialized Systems. The Westcot All Terrain General Use Cot 12 Person (WCATGUC12P) is just one example of a sheltering solution that was developed as a standby resource for agencies with general populous sheltering responsibilities. This radical collaboration of storage and deployability is making its mark on the Emergency Response Community by raising Responder health awareness and servicing communities equally.

Westcart Rolling Storage and Deployment Racks

IMS offers multiple storage and inventory mobilization solutions for our Agency Partners. There is a Westcart for every Westcot and many more. All of our Westcarts are constructed of Laser Cut, Heavy-Duty Steel that is finished with a durable powder coated finish. All Westcarts have an available All-Terrain Package Upgrade.
